

## The North Overland Road Project

The City of Burley and the Idaho Transportation Department (ITD) have joined forces to plan, design and rehabilitate/reconstruct North Overland Road (Idaho 27) in Burley from I-84 to the Snake River Bridge. Both the City of Burley and ITD recognize the significance of Overland Road to the community and regional travelers and have dedicated sufficient resources to effectively identify the roadway needs and complete the rehabilitation/reconstruction process.

Detailed traffic simulation studies for current and future conditions will be used to review and determine improvement alternatives. The process will assess existing roadway conditions, adjacent intersections and frontage roads to develop a comprehensive solution to meet roadway and user needs through 2028. The process will also include a technical assessment and environmental analysis to support the final recommended design.

### Public Involvement Opportunities

The planning process will involve representatives from the City of Burley, ITD, project area property and business owners, the Mini-Cassia Transportation Committee and affected agency representatives to ensure local perspectives are represented. Key stakeholders and property owners will be interviewed at the beginning of the process to identify issues and concerns. A Project Advisory Committee will be formed with local representation to help guide the process and evaluate alternative solutions.

The general public will also be invited to participate in the process through public open houses, media coverage and mailings that provide project information and opportunities to comment on the needs for the roadway, proposed alternatives and the recommended design. The first public open house will be held in July 2005 with date, time and location announced as they are determined. See "Project Steps and Schedule" on the back of this brochure for more details on events.

### How to be involved

#### Attend Public Open House Events

Open House #1 - July 2005

Open House #2 - November 2005

Public Hearing - October 2006

#### Consult Ongoing Project Information

- ♦ Contact a project team member - info on back
- ♦ Add your name to the mailing list for info on:
  - ♦ Upcoming events
  - ♦ Project newsletters

### The North Overland Road Project Area

## Who will complete the Design?

The Idaho Transportation Department (ITD) will manage the project, in collaboration with the City of Burley. They have hired Keller Associates, a Boise-based engineering / consulting firm, to lead a team of consultants to complete the planning process and final design. The planning and design phase will be completed over the next 27 months, concluding in July 2007.

## Project Steps & Schedule

<b>Identify Issues</b> ♦ Stakeholder interviews ♦ Meet with elected officials	May/June 2005
<b>Initial assessment</b> ♦ Traffic data and conditions ♦ Environmental analysis	April to November 2005
<b>Public Open House #1</b> <i>Project kick off—Identify issues</i>	<b>July 2005</b>
<b>Survey and mapping</b>	Apr 05 to Jan 07
<b>Develop purpose &amp; need / goals</b>	May / June 2005
<b>Traffic</b>	June to Nov 2005
<b>Identify possible improvements</b>	July to Aug 2005
<b>Identify feasible improvement alternatives</b>	Nov 2005
<b>Public Open House #2</b> <i>Feasible alternatives</i>	<b>November 2005</b>
<b>Preliminary design</b>	Feb to July 06
<b>Design study report</b>	July to Dec 2006
<b>Public Hearing</b> <i>Final roadway plan</i>	<b>October 2006</b>
<b>Final design</b>	Dec 06 to May 07
<b>Construction</b>	Tentatively planned for FY 08
